

## CDM Regulations 2007

Are you working on construction sites of any size? Do you know if the Project is a "reportable project" under CDM Regulations? Do you know what are the duties and responsibilities are of the Client, Principle Contractor, the CDM Co-ordinator?

### Course Aims

The aim of **Construction (Design and Management) Regulations 2007**, is to integrate health and safety into the Management of the Project and to encourage everyone involved to work together, this includes the planning and management of projects, identifying hazards early, and ensuring remaining risks are properly managed.

Clear up-to-date instruction on what the regulations actually mean. All the main areas identified in relation to construction safety.

### Suitable For:

Health & Safety Managers, Trade Supervisors/Foremen, Contractors and Sub-Contractors or anyone looking at working on construction sites.

### Course overview includes, but is not limited to:

- CDM 2007 General Duties,
- Health and Safety Construction Plan
- Health and Safety File
- Scaffolding
- Working at Height
- Ladders
- Demolition
- MEWPS
- Confined Space
- Accident and Near Miss Reporting
- Hazards and Risks in Construction
- Health Hazards in Construction

The course is run on a full day basis from 0930 to 1500 (5-6hrs) and is underpinned by DVDs, group discussions and handouts. QHS Solutions certificate of attendance can be gained for delegates who complete the course and satisfy course contributions and continual assessment.
