

Manual Handling British Safety Council Level 2

Aimed at

Those with responsibility for carrying out manual handling risk assessments in the workplace

Course overview

This one day course teaches delegates how to carry out a fire risk assessment in line with the HSE's guidance. Leads to a Level 2 qualification.

Benefits

- A nationally-recognised, transferable qualification based on the HSE's guidance on manual handling risk assessment.
- Allows employers to get 'the responsible person' properly qualified to carry out fire risk assessments, helping them to meet their legal obligations.
- Up-to-date and practical training, supplemented with completely new learning materials and specially developed interactive learning sessions.
- A fit for purpose assessment task related to the candidate's workplace, testing the application of learning in a practical context.

Our training utilises the very latest learning methods, with special emphasis on participative and interactive techniques in small groups of 8-10. the training sets out to develop sound and practical knowledge and understanding for day-to-day application in the workplace preparing participants for level 2 qualification assessment.

Course outcome

Learning outcomes are grouped into 13 varied topics including:

- Main legislation relating to manual handling risk assessment.
- Basic principles of anatomy and physiology
- The manual handling risk assessment process
